B.Tech

## PROJECTS

**Clone of Bewakoof.com**  
E-commerce shopping website  
This is an E-commerce shopping website where users can buy products as per their requirements. This was a team project and we all (a group of 6 members) were working as a team on this project for one week of duration. I was responsible for the implementation of Add to bag, payment, and OTP confirmation page. The Tech-Stack used to implement it is HTML, CSS, JavaScript and Git.
